FAVOUR AUGUSTINE PAULINUS

Nigeria | Open to Remote Opportunities
Email: favouraugustine610@gmail.com

PROFESSIONAL SUMMARY

Technology-focused graduate with a background in **Computer and Robotics Education**, combined with practical experience in Web3 communities, digital content, online research, AI-assisted workflows, and community management. Strong written communication, analytical thinking, attention to detail, and ability to learn new technologies quickly. Experienced in reviewing information, creating structured content, communicating technical concepts clearly, and working independently in remote environments. Interested in contributing to AI training, evaluation, research, data quality, and technology-focused projects.

CORE SKILLS

- AI-Assisted Research & Content Workflows
- AI Output Review & Quality Evaluation
- Research & Information Analysis
- Written Communication
- Content Creation & Editing
- Community Management
- Online Community Moderation
- Web3 & Blockchain Fundamentals
- Technical Communication
- Data Organization & Annotation Concepts
- Critical Thinking & Problem Solving
- Attention to Detail
- Digital Collaboration
- Remote & Independent Work
- Microsoft Office / Google Workspace
- Social Media Management

PROFESSIONAL EXPERIENCE

Independent Web3 & Technology Community Contributor

Remote | 2024 – Present

- Research and communicate emerging topics across Web3, blockchain, AI, and digital technology.

- Create educational and promotional content designed to explain technical concepts in clear, accessible language.
- Support online communities through moderation, engagement, announcements, and member communication.
- Review project information, campaign requirements, and technical documentation to produce accurate community-facing content.
- Work independently with remote teams and follow detailed campaign guidelines and deliverables.
- Evaluate information from multiple sources and organize findings into concise, structured outputs.
- Use AI-assisted tools to improve research, drafting, editing, brainstorming, and content-quality workflows.

Web3 Community & Ambassador Projects

Remote | Independent / Project-Based

- Participated in community and ambassador initiatives involving blockchain, DeFi, Web3 gaming, creator ecosystems, and emerging technology.
- Developed educational threads, social-media posts, campaign content, community announcements, and project explainers.
- Helped communicate product features and technical concepts to online communities.
- Supported community growth through engagement, discussions, educational content, and promotional campaigns.
- Adapted content to different audiences while maintaining accuracy, clarity, and project requirements.

SELECTED AI & TECHNOLOGY PROJECT EXPERIENCE

AI-Assisted Research & Evaluation Workflow

Independent Project

- Used AI tools to research, organize, draft, compare, and improve information across technology and Web3 topics.
- Reviewed generated content for clarity, relevance, factual consistency, structure, and audience suitability.
- Developed structured prompts and instructions to produce more useful and consistent outputs.
- Practiced comparing alternative responses and identifying areas requiring correction or improvement.

Web3 Technology Research & Content Project

- Researched blockchain platforms, DeFi protocols, Web3 gaming projects, and creator-economy applications.

- Converted technical project information into accessible educational content for community audiences.
- Analyzed project features, use cases, campaigns, and community requirements before producing content.
- Maintained attention to detail when working with technical terminology, campaign instructions, and project information.

EDUCATION

Bachelor of Science (B.Sc.) — Computer and Robotics Education

Nigeria

Relevant areas include:

- Computer Science Fundamentals
- Educational Technology
- Robotics & Automation
- Information Technology
- Problem Solving
- Digital Learning
- Technology Applications

WEB3 & TECHNOLOGY KNOWLEDGE

- Blockchain & Cryptocurrency Fundamentals
- DeFi
- Web3 Communities
- Web3 Gaming
- Digital Assets
- Token Ecosystems
- Community Governance
- AI-Assisted Productivity
- Digital Research
- Emerging Technology

PROFESSIONAL STRENGTHS

- Strong written and verbal communication
- Fast learner with strong technology interest
- Detail-oriented and organized
- Comfortable following detailed instructions and evaluation criteria
- Able to work independently in remote environments
- Strong community and interpersonal communication
- Comfortable learning unfamiliar technical subjects
- Able to explain complex ideas in simple language

CAREER OBJECTIVE

To contribute my education, technology knowledge, research ability, communication skills, and growing experience with AI-assisted workflows to projects that improve the quality, reliability, and usefulness of artificial intelligence systems.
